PROFESSIONAL SUMMARY

Dynamic and results-oriented Software Developer with experience in building user-focused web applications. Adept at working in Agile DevOps teams to design, develop, deploy, and test software. Proven ability to create efficient solutions in microservices architecture, improve site performance, and deliver high-quality code. Demonstrates strong communication skills, teamwork, and a proactive attitude towards continuous learning and professional growth.

CORE SKILLS

- Full-stack Development (React.js, JavaScript, TypeScript, HTML, CSS, Tailwind)
- UI/UX Design Principles
- Testing & Debugging
- Code Review & Optimization
- Project Management
- Communication & Collaboration

PROFESSIONAL EXPERIENCE

Frontend Software Developer
November 2024 - Present
Freelancer – (Remote)

- Developed user interfaces for web applications using React.js, HTML, CSS, and JavaScript.
- Designed intuitive UI features that improved navigation and overall user experience.
- Built reusable components to streamline development and increase project efficiency.
- Enhanced site performance by optimizing code, reducing page load times, and improving responsiveness.

Full Stack Software Developer
November 2023 – November 2024
GOMYCODE Academy – (Remote)

- Collaborated with architecture teams to design and implement scalable solutions.
- Developed and deployed responsive web applications in line with design requirements.
- Assisted senior developers in writing efficient and scalable code.
- Implemented dynamic features that improved user engagement by 20%.

Software Engineering Intern (Frontend)
August 2023 – January 2024
NSIA Insurance Limited – (On-Site)

- Developed dynamic web interfaces with React.js and TypeScript.
- Collaborated with designers to implement creative and user-friendly UI solutions.
- Conducted code reviews to maintain high-quality standards.

Software Engineering Intern (Frontend)
May 2023 – July 2023
Doyen Emerging Technologies Engineering Limited – (Hybrid)

- Developed responsive and interactive websites using HTML, CSS, and JavaScript.
- Conducted rigorous testing to ensure optimal performance across devices.
- Mentored aspiring software engineers in fundamental programming concepts, data structures, and problem-solving.

EDUCATION

Bachelor of Science: Electronic and Computer Engineering
Lagos State University, Lagos, Nigeria (04/2025)

Diploma: Full Stack Web Development
GOMYCODE Academy

HOBBIES & INTERESTS

- Continuous Learning
- Research & Innovation
- Community Development
- Attending Tech Seminars & Events
